## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites the limitation "the fitting" in line 4. There is insufficient antecedent basis for this limitation in the claim. It appears to be a double inclusion of the "body" recited in claim 1.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rabitsch (5,076,497) in view of Swan (6,557,787).

Rabitsch discloses a nozzle 10 having a diffuser blade 64. Rabitsch does not disclose a body in combination with the nozzle. Swan discloses a spray nozzle comprising a nozzle 1 and body 2. The body 2 has a regulating orifice 62. It would

have been obvious to a person having ordinary skill in the art at the time of the invention to have provided a body to the nozzle of Rabitsch as taught by Swan to regulate the flow to Rabitsch's nozzle.

***Allowable Subject Matter***

5. Claims 8-13 are allowed.
6. Claim 7 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Okuma disclose a nozzle having a curved diffuser.
